UNIQUE FEATURES

Self-diagnosis and Auto-protection

Once unusual operation or parts failure happens, the unit will shut off automatically to protect the system, meanwhile it will indicate protection or error code for fast servicing

Active carbon filter

The anti-dust and active carbon filter help to capture particles including allergens such as pollen and dust. Enjoy the fresh air instantly

Golden Fin* Technology

Quick heat exchange to assure longer duration performance, the golden fin technology is more resistant to water, rust, adherent grease, oxidation, and other corrosive elements.

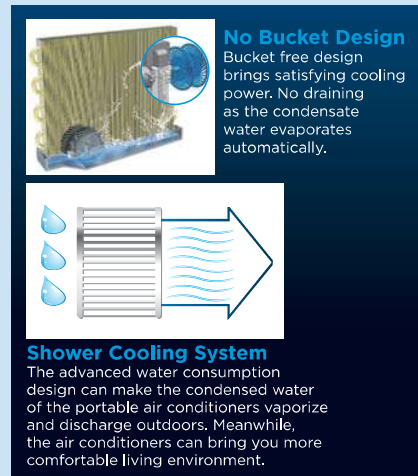

Timer functions, sleep better at night

Set various timer function using your wireless remote control. Sleeping better at night with ease

360° Mobile universal wheel design easy portability

Attached wheels provide greater versatility of movement, so that you can relocate the air conditioner without difficulty anywhere you want to cool (window access required).

No Bucket Design

Bucket free design brings satisfying cooling power. No draining as the condensate water evaporates automatically.

Shower Cooling System

The advanced water consumption design can make the condensed water of the portable air conditioners vaporize and discharge outdoors. Meanwhile, the air conditioners can bring you more comfortable living environment.

Self-evaporative System

No drainage More efficient
